Maximize the value of your ERP investment.

We support successful ERP implementations and optimizations.

Given the cost and complexity of investing in an ERP, it's important to carefully architect and execute from planning to buliding to training and post-live support so you can realize the most value from your investment.

Pivot Point can help.

We help you maximize your ERP investments. We've worked for leading systems and vendors so we understand your challenges, appreciate that every company is different. We help you establish processes by collaborating with you to refine system workflows and achieve the highest levels of EHR performance that will deliver the most value to your organization.

Trusted ERP healthcare solutions.

We partner with your team to understand your long-term goals and support you wherever you need us – from strategic planning, thoughtful execution and ongoing guidance to talent solutions.

ALL-STAR TALENT.
Pivot Point Consulting is ranked 2020 #1 Best in KLAS: Overall IT Services Firm. We have also been ranked top three Best in KLAS for HIT Implementation and Support for four years running (2015 / 2016, 2017, 2018 and 2019), Highest Rated Vendor in KLAS Implementation Services in the Select Category (July 2017) and #1 in KLAS for Epic Consulting in the Select Category (2016).

10+ YEARS OF HEALTHCARE IT EXPERIENCE.
Our Consultants average 10+ years of hands-on experience building, testing and training, as well as go-live, stabilization, implementation, optimization and upgrade support.

BEST PRACTICE TOOLS.
Given our deep ERP experience, we've built leading tools and methodologies to increase the efficiencies of our projects to support a successful transition.

CHANGE THAT STICKS.
Adoption is key to any implementation, but it's often overlooked. We conduct comprehensive change readiness assessments across your organization to ensure that what we build together sticks and to help you deliver change management strategies.

PROVEN PLANS CUSTOMIZED FOR YOU.
We balance technical with organizational requirements to get the most out of your ERP system at go-live and for the long run.
