

Free yourself up to focus on strategy.

We free you up from the day-to-day maintenance of IT and EHR operations so you can focus on strategic initiatives.

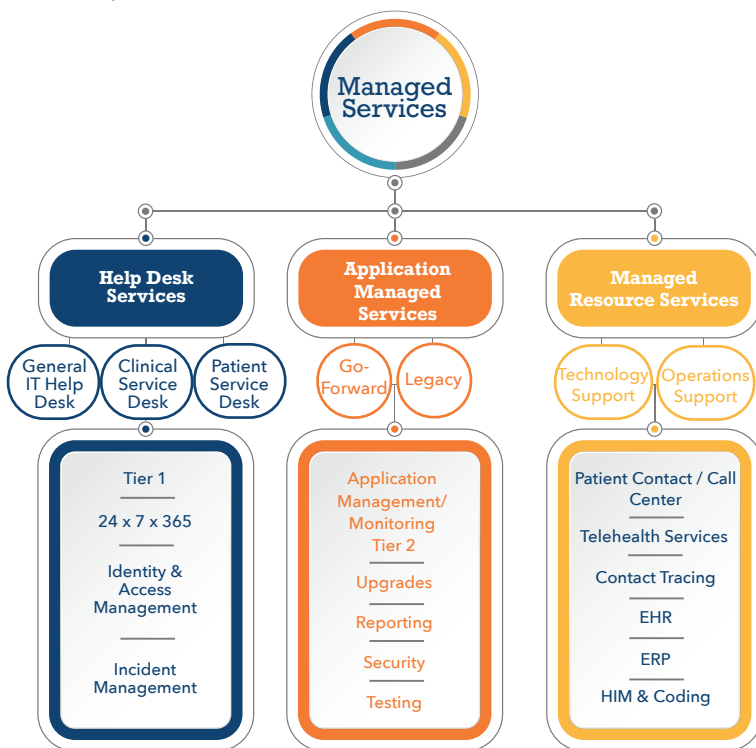

Given the pace of technological change, IT upgrades, optimization, maintenance and support can be difficult, expensive and strain often already over-leveraged resources – which prevents them from focusing on higher value activities.

Pivot Point can help.

Get even more value from Managed Services. You can rely on us not only to deliver quality (as a result of our deep experience and integrated team) and an exceptional patient experience, but also use the data to provide you with performance improvement insights and solutions.

Experienced teams deliver a trusted, centralized U.S.-based solution.

We have a dedicated team headquartered at our Managed Services Center of Excellence in Madison, Wisconsin focused on identifying and driving value across managed services, the patient experience and healthcare operations.

HELP DESK SERVICES.

We decrease your operating expenses and improve outcomes by increasing resource utilization and clearly defining tasks so you get a better picture of your costs to operate and own your enterprise applications.

- ▶ IT
- ▶ EHR
- ▶ Patient Portal

APPLICATION MANAGED SERVICES.

We manage the day-to-day maintenance of your enterprise healthcare application systems.

SUBSCRIPTION SERVICES.

We increase your available project hours by removing task fragmentation and increasing your level of support.
