

Adoption drives value.

We offer EHR training to increase adoption and value.

Training and activation are critical to successful adoption of EHR systems, yet they're often overlooked. Focusing on those important levers drives adoption and efficiencies, as well as staff and provider satisfaction.

Pivot Point can help.

We provide comprehensive, credentialed training and activation services to increase adoption and the value of your EHR investments.

Trusted training & activation solutions.

Our solutions include staffing, consultant and project management support and advisory services. We support planning through post go-live and offer ongoing training to ensure adoption is ingrained and effective.

TRAINING MENTORSHIP & ADVISORY SERVICES.

We're experts at running full cycle training programs to help you navigate your project timelines and deliverables.

- ▶ Strategy & planning
- ▶ Project management
- ▶ Training leadership support
- ▶ Training team development & engagement

PHYSICIAN TRAINING.

To drive efficiencies and adoption of the EHR, we offer expert level physician specialty training, Dragon training, personalization labs and end user support.

ONSITE MANAGEMENT & COORDINATOR PROGRAM.

We provide industry experts for project and resource management and support.

RESERVE TRAINER PROGRAM.

To ensure continuity of coverage, we hire credentialed trainers who complete your health system's onboarding documentation and procedures to ensure they are compliant and can be immediately deployed.

PRINCIPAL TRAINER DEVELOPMENT PROGRAM.

We've developed multiple workshops to help even the most seasoned trainer navigate their role and deliverables. All workshops are designed to complement your EHR implementation package.

LOCAL EDUCATOR PROGRAM.

Our Local Educator Program supplements the core consulting team with qualified candidates from your community who provide significant cost savings and an excellent contract-to-hire option post-implementation, at no additional cost.

Why Pivot Point?

Pivot Point Consulting has helped train more than 200,000 end users across 42 inpatient facilities and 600+ clinics, where we've deployed approximately 600 credentialed trainers.

We bring deep healthcare industry experience, as well as the breadth of Vaco's industry-agnostic expertise and perspective to drive growth, operations, projects and innovation.

Relationships. Reliability. Results.
